

Eric Le

Applied AI Engineer

✉ me@erclx.dev 📞 +46 73 970 87 91 🌐 erclx.dev 📄 erclx 📁 erclx 📍 Gothenburg, Sweden

Profile

Applied AI engineer working in LLM applications and prompt engineering. Built and deployed natural language data agents at Volvo over 1.5 years across three engagements. Published two developer tools: a VS Code extension and a Chrome extension.

Professional Experience

Associate Data Scientist

Nov 2024 – Jun 2025

Volvo Technology, Gothenburg

- Rebuilt LangGraph agent for single-cylinder test data, extending it into a multi-step SQL pipeline with session memory
- Deployed to PostgreSQL and Kubernetes, replacing manual queries for engineering teams in PSD department
- Sole owner of agent design, data pipeline, and deployment

Technologies: Python, LangGraph, OpenAI, PostgreSQL, S3, Kubernetes, Streamlit

Master's Thesis & Applied AI Intern

Jan 2024 – Sep 2024

Volvo Technology, Gothenburg

- Built LLM agent translating natural language to Python plotting code with sandboxed execution for truck telematics data
- Deployed plotting agent to Lyon engineering group for real-time truck signal visualization
- Demoed SQL query agent with session memory, leading to retention on a new team

Technologies: Python, LangChain, OpenAI, Streamlit, SQL

Projects

Stackr, VS Code Extension

2025

VS Code Marketplace · Open VSX · GitHub

- Published extension for multi-file LLM context preparation with 1,000+ downloads on Open VSX. Drag-and-drop file staging, live token counting, and pinned files that survive session restarts.

Technologies: TypeScript, VS Code Extension API, Node.js, GitHub Actions

Caret, Chrome Extension

2026

Chrome Web Store · GitHub

- Published prompt library picker for AI chat interfaces. Trigger-symbol search and keyboard-driven injection across Claude, Gemini, and ChatGPT.

Technologies: TypeScript, React, Chrome Extension API, Vite, GitHub Actions

Education

MSc in Complex Adaptive Systems

2022–2024

Chalmers University of Technology, Gothenburg

BSc in Engineering Physics

2019–2022

Chalmers University of Technology, Gothenburg
